

Chantachick

a.k.a. Rascal

\$2000 obo

Chantachick, aka Rascal is a 19 year old seasoned barrel horse. Don't let her age fool you, she has plenty of go still. She is definitely not for a beginner. Her pedigree includes Three Bars on the top and bottom side along with War Chant and Top Deck. She has Three Chicks and Three Bars on the bottom side. I have used her to work cattle and my husband has started to use her for team roping on the heeling side and she has been doing very well with that. I have also used her on trail rides and she does very well with that as well. Last year for the gymkana association that we competed in she was the overall high point winner in Kegs and for my age group she was 1st in pole, kegs and arena race and was 1st along with my husband's horse for the pair sack race. My age group includes women ages 19-45 so it's a large group with lots of competition. I really feel that Rascal would be great for a junior high or high school kid that is looking for that little extra speed, but still has the experience to handle her. I've had Rascal since I was 13 and she has been a great horse. She has never offered to buck or rear, she does toss her head occasionally but it's a nervous habit for her. But she is a mare and a trained barrel horse and some of it is expected. I can take her out in a hack and ride her down the road or in the arena and she does just fine with it as well as the bit that I run her in for barrels. If Rascal stays with us she will be retiring from barrel racing but only because of having too many young ones that need more attention. Can't haul all of them! Her price is negotiable, would also consider a trade depending on what you have available.
